GTR NORDICS 2019

GTR Nordics returned to Stockholm on November 19, 2019, welcoming another record-breaking audience of over 500 trade finance experts, insurers, bankers, ECAs, technology innovators and corporates of all sizes.

The event once again provided a lively forum to discuss the latest strategic developments across key geographical markets and industry sectors, featuring extensive reflection on the trade and export financing sector's capability to meet the needs of Nordic corporates despite strong regulatory headwinds.

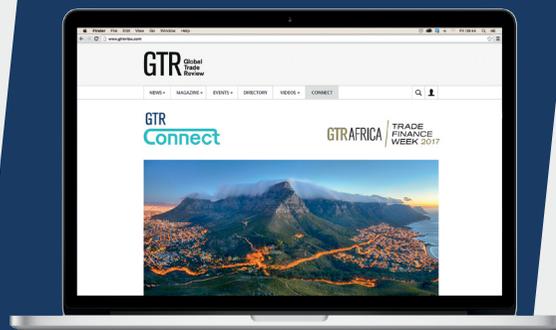

Discussion pinpointed the impact of trade sanctions and complex KYC compliance demands as some of the most pressing challenges faced in the current climate, with strategic concerns surrounding CSR and ESG standards, sustainability and trade digitisation also featuring prominently. Broad audience consensus pointed to increasing collaboration and coordination between the market's key players as a crucial factor in the sector's capability to maintain relevant. As showcased at GTR Nordics 2019, standardisation and digitisation are already addressing these pressing issues in areas such as small ticket export finance and compliance screening: we're hugely excited to return to Stockholm in 2020 to hear more on the latest financing innovations optimising support for Nordic trade.

"I can highly recommend GTR Nordics as being the only major trade and export finance event in the Nordic region. THE place to be!"

J Kuusala, Handelsbanken
